Faculty Position in Geochemistry, Yale University

The Department of Geology & Geophysics at Yale University invites applications for a tenure-track Assistant Professor appointment in the broad area of geochemistry. Relevant fields include (but are not limited to) processes of the solid Earth, oceans, atmosphere, and biosphere; geochemical cycling; reaction rates; numerical modeling; analytical innovations; origin of life; and planetary evolution.

We seek candidates with outstanding prospects for research, scholarly leadership, and teaching excellence who will complement the existing strengths of the Department. A successful applicant will develop and implement independent, externally-funded research programs, teach and advise students, and facilitate interdisciplinary research.

Applicants should submit a letter of application, a curriculum vitae including a full list of publications, a statement of research, a statement of teaching interests, and four confidential letters of reference. Applications should be submitted online at http://apply.interfolio.com/29988. Applications that arrive before September 30, 2015 will receive full consideration. For information regarding Yale Geology and Geophysics, visit our web site at http://earth.yale.edu. Yale University is an Affirmative Action/Equal Opportunity employer. Yale values diversity among its students, staff, and faculty and strongly welcomes applications from women, persons with disabilities, protected veterans, and underrepresented minorities.
